Dear Ms Martin

Re: MPharm reaccreditation at the University of Brighton

Further to the MPharm accreditation event in December 2014 I would like to confirm that we accept the report and record as an accurate representation of the meetings held. Please accept this letter as our formal response to meet the requirement of the Pharmacy Order 2010.

The course team was delighted with the full six year accreditation with no conditions nor other recommendations for improvement being made. We believe that our course, fully case-based for the first three years, is innovative and allows the subject material of the pharmaceutical sciences to be presented in a truly integrated manner. We are also confident that our assessment processes provide assurance that the graduates have engaged fully with the curriculum and have met the learning outcomes of the programme. We also feel that the development of this novel programme has brought the academic team together such that the students' learning experience will benefit from the enthusiasm and cohesiveness engendered. We would like to thank the GPhC accreditation team for their diligence and rigour throughout the process.

Yours sincerely

Professor Paul R Gard BSc PhD FBPhS FHEA
Interim Head of School
