- (b) Differences between the professional activity exercised in the home State and the regulated profession in the United Kingdom are so large that the application of compensation measures would amount to requiring the applicant to complete the full programme of education and training required in the United Kingdom to have access to the full regulated profession in the United Kingdom.
- (c) The professional activity can objectively be separated from other activities falling under the regulated profession in the United Kingdom.

(2) In determining paragraph (1)(c) the competent authority in the United Kingdom must take into account whether the professional activity can be pursued autonomously in the home State.

(3) Professionals benefitting from partial access must clearly indicate to service recipients the scope of their professional activities

(4) Request for partial access may be rejected if justified by overriding reasons of general interest, suitable for securing the attainment of the objective pursued, and does not go beyond what is necessary to attain that objective.

17.—(1) Applications for partial access for the purpose of establishment must be examined in accordance with Chapter 1 and 4 of Part 3.

(2) Applications for partial access for the purpose of providing temporary and occasional services in respect of professional activities having public health and safety implications must be examined in accordance with Part 2 of Chapter 1.

(2) Competent authorities may, in order to facilitate the application of disciplinary provisions in professional, statutory or administrative rules, provide either for automatic temporary registration or for pro-forma membership if such registration or membership—

- (a) does not delay or complicate in any way the provision of services, and
- (b) does not entail any additional costs for the applicant.

(3) For the purpose of settling accounts with an insurer relating to activities pursued for the benefit of insured persons, the applicant shall inform in advance or, in an urgent case afterwards, the body referred to in paragraph (1)(b).

Declaration and documents to be provided on the first provision of service

- (a) for the first provision of services, or
- (b) if there is a material change in the situation substantiated by the documents.

(2) The documents that may be required are—

(2) The competent authority may require additional information concerning the professional qualifications of the applicant if—

- (a) the profession is regulated in parts of the United Kingdom in a different manner,
- (b) such regulation also applies to all United Kingdom nationals,

(7) The competent authority must transmit the updated European professional card to the relevant host states.

(8) The European professional card is valid in the entire territory of any relevant host state for the duration of the holder's right to practice on the basis of the documents and information on their IMI file.

(3) Such prior check shall be possible only where the purpose of the verification is justified and proportionate in the profession concerned in order to avoid serious damage to the health or safety of the recipient of the service, due to a lack of professional qualifications of the applicant, and where this check does not go beyond what is necessary to achieve that purpose.

27.—(1) Subject to regulation 28, the competent authority for a profession which has public health or safety implications must, prior to the first provision of services, give the applicant the opportunity to show that he has acquired the knowledge, skills or competence lacking where—

- (b) the substantial difference is such as to be harmful to public health or safety and cannot be compensated by the applicant's professional experience or by knowledge, skills or competences acquired through lifelong learning formally validated to that end by a relevant body.

(2) In the circumstances specified in paragraph (1), the applicant must demonstrate that they have acquired the knowledge or competence lacking, in particular, by taking and passing an aptitude test.

28.—(1) The competent authority must, within the first month of receipt of the declaration and accompanying documents, inform the applicant of its decision—

 - (ii) to allow the provision of services.

29.—(1) Where there is a difficulty which would result in delay of a decision under paragraph 28(1), the competent authority must notify the applicant of the reason for the delay within the same deadline.

(2) The difficulty must be solved within one month of the notification referred to in paragraph (1) and the decision finalised within two months of resolution of the difficulty.

30.—(1) Where the competent authority gives the applicant the opportunity under regulation 27(1) to show that he has acquired the knowledge, skills and competence lacking, the competent authority must give the applicant that opportunity within one month of the decision referred to in paragraph 28(1) or **29(1)**.

(2) In the absence of a reaction from the competent authority within the periods stipulated in regulation 28(1), regulation 29(2) and paragraph (1), the applicant may provide the services in the United Kingdom.

Non compliance

31.—(1) An applicant will no longer be entitled to provide services in the profession that they are pursuing in the United Kingdom in accordance with this Part nor retain any temporary registration, if—

- (a) the applicant becomes established in that profession in the United Kingdom; or
- (b) the applicant is subject to a decision of the competent or judicial authority of **the relevant European State in which the applicant is established** which has the effect that the applicant is no longer lawfully established in that State or that the applicant is prohibited (even temporarily) from practising that profession there.

(2) Where—

- (a) under regulation 21 an applicant should have, but has not, renewed (or further renewed) a declaration under that regulation; and
- (b) under the professional rules concerned, a sanction is imposed by reference to the failure to renew,

the sanction is of no effect if, or so far as, it is not in the circumstances of the case proportionate to the failure to renew.

(3) Where under an enactment any register is maintained of persons engaged in the profession concerned, the competent authority for the profession, as a sanction for the failure to renew, may cause the applicant's name to be removed from that register.

(4) For the purposes of paragraph (2)(b), paragraph (3) is part of the professional rules concerned.

Administrative cooperation and service provision

32.—(1) Competent authorities may ask the competent authorities of the home State—

- (b) for information about the applicant's training courses as necessary to assess substantial differences likely to be harmful to public health and safety.

(2) Competent authorities must provide this information to the competent authorities of other relevant European States in accordance with regulation 5(2) and regulation 58(1) and (2).

(3) In the case of non-regulated professions, the [contact points] [assistance centres] must provide such information.

 - (ii) regulated education and training or, in the case of a regulated profession, vocational training with a special structure with competences going beyond what is provided for at paragraph (b) equivalent to the level of training provided for under sub-paragraph (i), which provides a comparable professional standard and which prepares the trainee for a comparable level of responsibilities and functions provided that the diploma is accompanied by a certificate from the home state;
- (d) a diploma certifying successful completion of training at post-secondary level of at least three and not more than four years' duration, or of an equivalent duration on a part-time basis, which may in addition be expressed with an equivalent number of ECTS credits, at a university or establishment of higher education or another establishment providing the same level of training, and that the applicant has successfully completed the professional training which may be required in addition to that post-secondary course;

Equal treatment of qualifications

35.—(1) Any evidence of formal qualifications or set of evidence of formal qualifications must be treated as evidence of formal qualifications of a type covered by regulation 34, including the level in question if such evidence or set of evidence—

- (a) is issued by the competent authority of a relevant European State certifying successful completion of training in any of the relevant European States on a full or part time basis, within or outside formal programmes which is recognised by that relevant European State as being of an equivalent level, and
- (b) confers on the holder the same rights of access to or pursuit of a profession or prepares the applicant for the pursuit of that profession.

(2) Any professional qualification shall be treated as evidence of formal qualifications under the same conditions as set out in paragraph (1) where such professional qualification:

- (a) does not satisfy the requirements contained in the legislative, regulatory or administrative provisions in force in the home State for access to or the pursuit of a profession, but
- (b) confers on the holder acquired rights by legislative, regulatory or administrative provisions in force in the home State.

(3) Paragraph (2) applies, in particular, where—

- (a) the home State raises the level of training required for admission to a profession and for its exercise, and
- (b) an applicant, having undergone former training which does not meet the requirements of the new qualification, benefits from acquired rights by virtue of legislative, regulatory or administrative provisions in the home State.

(4) Where the circumstances of paragraph (3) apply, the former training shall be considered by competent authorities as corresponding to the level of the new training.

Issue of European professional card for establishment

36.—(1) Where an applicant applies for a European professional card under this Part the competent authority in the home State must within one month verify the authenticity and validity of the supporting documents in the IMI file.

(2) The period of one month starts upon receipt of any missing documents referred to in regulation 8(5), or if there are none, upon the expiry of one week of receipt of the application.

(3) The competent authority in the home State must then transmit the application immediately to the competent authority [of the host State] [in the United Kingdom] and inform the applicant of the status of the application at the same time.

(4) The actions taken by the competent authority in the home State under paragraph (1) replaces any application for recognition of professional qualifications under [the national law of the host State] [the law of the United Kingdom].

37.—(1) In cases falling under regulation 49 and common training principles under articles 49a and 49b of the Directive, the competent authority in the [host State] [United Kingdom] must decide, within one month of receipt of the application transmitted by the home state competent authority, whether to issue a European professional card.

(2) In case of justified doubts, the competent authority [of the host State] [in the United Kingdom] may request additional information from, or the inclusion of a certified copy of a document by the competent authority of the home State.

(3) In the case referred to in paragraph (2), the competent authority of the home State must provide the information or document within two weeks of submission of the request.

(4) The request for additional information referred to in paragraph (2) shall not prevent the obligation to issue within the one month period referred to in paragraph (1), subject to an extension permitted under regulation 41.

38.—(1) In the case of temporary and occasional provision of services for professions having public health or safety implications and in cases referred to in regulation 46(3), the competent authority [of the host State] [in the United Kingdom] must decide whether to issue a European professional card or to subject the professional to compensation measures within two months of receipt of the application submitted by the competent authority of the home State.

(2) In case of justified doubts, the competent authority in the [host State] [United Kingdom] may request additional information from, or the inclusion of a certified copy of a document by the competent authority of the home State.

(3) In the case referred to in paragraph (2) the competent authority in the home state must provide the information or document within two weeks of the submission of the request.

(4) The request for additional information etc referred to in paragraph (2) will not prevent the obligation to issue within the two month period referred to in paragraph (1), subject to an extension permitted under regulation 41.

39. If the competent authority in the [host State] [United Kingdom] does not receive the information required to make a decision on the application from either the competent authority in the home State or the applicant, it may refuse to issue the card with justified reasons.

40. Where the competent authority in the [host State] [United Kingdom] fails to take a decision within the time limits set out in regulations 37(1) and 38(1) or fails to organise an aptitude test in accordance with regulation 46 the European professional card will be deemed to be issued and will be sent automatically through IMI to the applicant.

41.—(1) The competent authority in the [host State] [United Kingdom] can extend by two weeks the deadlines set out in regulations 37(1) and 38(1) for the automatic issue of the European professional card. It must explain the reason for the extension and inform the applicant.

(2) Such extension may be repeated once when strictly necessary, in particular for reasons relating to public health or safety of service recipients.

42. The decisions of the competent authority in the United Kingdom in regulations 36 to 41 or the absence of decisions by the competent authority in the [home State] [United Kingdom] must be subject to appeal in the United Kingdom under regulation 60.

Conditions for recognition

43.—(1) Subject to a requirement by the competent authority pursuant to regulation 46, if access to or pursuit of a regulated profession in United Kingdom is contingent on possession of specific qualifications, a competent authority must permit access to and pursuit of that regulated profession to an applicant under the same conditions as apply to a UK applicant, where that applicant—

- (a) possesses the attestation of competence or evidence of formal qualifications required by another relevant European State, where the profession is regulated, in order to gain access to and pursue that same profession in that relevant European State, or
- (b) has pursued that same profession on a full time basis for one year or for an equivalent overall duration on a part-time basis during the previous ten years in another relevant European State which does not regulate that profession, provided that the applicant possesses one or more attestations of competence or documents providing evidence of formal qualifications issued by a relevant European State **that which** does not regulate that profession.

(2) Attestations of competence or evidence of formal qualifications must satisfy the following conditions:

- (a) they must have been issued by a competent authority of another relevant European State;

(b) where paragraph (1)(b) applies, they must also attest that the applicant has been prepared for the pursuit of the profession in question.

(3) A competent authority may not require the one year of professional experience referred to in paragraph (1)(b) if the evidence of formal qualifications which the applicant possesses certifies regulated education and training.

(4) A competent authority must accept the level attested under regulation 34 by the home state as well as the certificate by which the home state certifies that regulated education and training or vocational training with a special structure referred to in regulation 34(c) (ii) is equivalent to the level provided for in regulation 34(c) (i).

(5) A competent authority may refuse access to and pursuit of a regulated profession where access to this profession is contingent in the United Kingdom on possession of a qualifications set out in regulation 34 (e) and where the applicant possesses an attestation of competence classified under **in** regulation 34(a).

Compensation measures--adaptation periods and aptitude tests

44.—(1) An adaptation period means, in relation to the regulated profession which the applicant seeks to take up or pursue in the United Kingdom, a period of pursuit of a regulated profession under the supervision of a qualified member of that profession, subject to an assessment of the ability of the applicant to pursue that profession in the United Kingdom.

(2) **The** competent authority must clearly set out the detailed rules governing the adaptation period and its assessment, having regard to the circumstances of each individual applicant and, in particular, to the fact that he is a qualified professional in another relevant European State.

(3) The applicant may be required to undergo further training during the adaptation period.

(4) The applicant's performance during the adaptation period must be assessed by the competent authority.

(5) The professional status of an applicant during the adaptation period will be a matter for the competent authority.

45.—(1) An aptitude test means, in relation to the regulated profession which the applicant seeks to take up or pursue in the United Kingdom, a test of the applicant's professional **knowledge skills** and competences carried out or recognised by the competent authority with the aim of assessing the ability of the applicant to pursue that profession in the United Kingdom.

(2) **The** test must take into account that the applicant is a qualified professional in another relevant European State.

(3) The competent authority must determine the matters to be covered by the aptitude test as follows—

(a) the competent authority must draw up a list of subjects which, on the basis of a comparison between the education and training required for the practice of the profession required in the United Kingdom and that received by the applicant, have not been covered by the diploma or other evidence of formal qualifications possessed by the applicant;

(b) the test must cover subjects selected from those so listed, the knowledge of which is essential for the pursuit of the regulated profession in the United Kingdom; and

(c) the test may include knowledge of the relevant rules of professional conduct.

(4) The detailed application of the aptitude test and the professional status of an applicant preparing for the aptitude test will be a matter for the competent authority.

Conditions for compensation measures

46.—(1) A competent authority may, before authorising the applicant to **practice** the regulated profession in the United Kingdom, require the applicant in the circumstances specified in paragraph (3) either (but not both)—

(a) to complete an adaptation period of up to three years with a successful assessment, or

(b) to take and pass an aptitude test.

(2) If a competent authority intends to require the applicant to complete an adaptation period or take an aptitude test it must first examine whether the **knowledge skills** and competences acquired by the applicant in the course of the applicant's professional experience or through lifelong learning, and formally validated to that effect in a relevant European State or in a third country is such that it fully or partly covers substantially different matters.

(3) A competent authority may require the applicant to complete successfully an adaptation period or pass an aptitude test if—

- (a) the education and training the applicant has received covers substantially different matters than those covered by the evidence of formal qualifications required for the regulated profession in the United Kingdom; or
- (b) the regulated profession in the United Kingdom—
 - (i) comprises one or more regulated professional activities which do not exist in the profession in the applicant's home State, and
 - (ii) that difference consists in specific training which is required by the regulated profession and which covers substantially different matters from those covered by the applicant's attestation of competence or evidence of formal qualifications.

(4) In this regulation, "substantially different matters" means matters of which **knowledge skills** and competences acquired are essential for pursuing the profession and with regard to which the training received by the applicant shows important/significant differences in terms of content from the training required in the United Kingdom.

(5) Where a competent authority decides that an aptitude test is necessary, it must permit the applicant the possibility of taking the test within six months of the decision imposing an aptitude test on the applicant.

47. Where a competent authority considers it necessary to impose an adaptation period or aptitude test, it must inform the applicant of—

- a) The level of professional qualification required in the United Kingdom and the level of qualification held by the applicant in accordance with the classification set out in regulation 34; and
- b) The substantial differences referred to in regulation 46(4) and the reasons for which those differences cannot be compensated by knowledge skills and competence acquired in the course of professional experience or lifelong learning formally validated by a relevant body.

48.—(1) Where a requirement is imposed under regulation 46(1), **the choice between an adaptation period and aptitude test must be that of the applicant except—**

- (a) in the regulated professions set out in the first column of the table in Part 1 of Schedule 3, whose pursuit requires precise knowledge of national law and in respect of which the provision of advice or assistance or both concerning national law is an essential and constant aspect of the professional activity, where the requirements set out in the second column of that table in respect of each profession shall apply, or
- (b) in cases specified in—
 - (i) regulation 3(8)(a) (except for nurses responsible for general care and midwives) and (b),
 - (ii) regulation 3(8)(c) concerning only doctors and dental practitioners,
 - (iii) regulation 3(8)(d), where the applicant is a specialist nurse without training as a general nurse and seeks recognition in the United Kingdom where the relevant professional activities are pursued by nurses responsible for general care or specialised nurses holding evidence of formal qualifications as a specialist which follows the training leading to the possession of the titles listed in Annex V, point 5.2.2, or
 - (iv) regulation 3(8)(e),

where for each of the professions set out in the first column of the table in Part 2 of Schedule 3, the requirements set out in the second column of that table shall apply.

- (c) A holder of a professional qualification referred to in regulation 34(a) who applies for recognition of their professional qualifications where the national professional qualifications required is classified under regulation 34(c),
- (d) A holder of a professional qualification referred to in regulation 34(b) who applies for recognition of their professional qualification where the national professional qualification required is classified under regulation 34(d) or (e).

(2) In the case of a holder of a professional qualification referred to in regulation 34(a) who applies for recognition of the qualification where the national professional qualification required is classified under regulation 34 (d), the competent authority may impose both an adaptation period and an aptitude test.

Common Provisions on Establishment

Documentation and formalities

52.—(1) When considering an application for authorisation to pursue a regulated profession, other than an application for a European Professional Card, the competent authority may in accordance with the provisions of Annex VII of the Directive—

- (a) demand the documents and certificates listed in that Annex, and
- (b) invite the applicant to provide information concerning the applicant’s training to the extent necessary in order to determine the existence of potential substantial differences with the training requirements in the United Kingdom, or if it is impossible for the applicant to provide such information, the competent authority shall address the contact point, the competent authority or any other relevant body in the home State.

(2) The documents referred to in point **1(d), (e) and (f) of Annex VII**, shall not be more than three months old by the date on which they are submitted.

(3) The competent authority must keep confidential all such information received by it.

53.—(1) A competent authority, in cases of justified doubt, may require from a competent authority of a relevant European State confirmation of the authenticity of the attestations and evidence of formal qualifications awarded in that other relevant European State.

(2) A competent authority, in cases of justified doubt, is entitled, where evidence of formal qualifications has been issued by a competent authority of a relevant European State, and includes training received in whole or in part in an establishment legally established in a relevant European State other than that which awarded the qualification, to verify with a competent authority of the relevant European State of origin of the award—

- (a) whether the training course at the establishment which gave the training has been formally certified by the educational establishment in the relevant European State of origin of the award;
- (b) whether the evidence of formal qualifications issued is the same as that which would have been awarded if the course had been followed in the relevant European State of origin of the award; and
- (c) whether the evidence of formal qualifications confers the same professional rights in the territory of the relevant European State of origin of the award.

(3) A competent authority, in cases of justified doubt, is entitled to require confirmation from a competent authority of a relevant European state that the applicant is not suspended or prohibited from the pursuit of the profession as a result of serious professional misconduct or conviction of criminal offences relating to the pursuit of any of the applicant’s professional activities.

54. Where an applicant is required to swear a solemn oath or make a sworn statement, the form of which is such that it cannot be taken or made by applicants of another relevant European State, the competent authority must ensure that an appropriate equivalent form of oath or declaration is available for those applicants.

(3) For the purposes of this regulation, if a competent authority fails to take a decision and notify it to the applicant within the period mentioned in paragraph (2), it shall be deemed to have taken a decision to reject the application and to have notified it to the applicant on the last day of that period.

(4) This regulation does not apply to a competent authority acting in relation to an application for a European Professional Card for establishment in the United Kingdom.

57.—(1) If the use of a professional title relating to one of the activities of the profession in question is regulated in the United Kingdom, applicants who are authorised to practise a regulated profession in accordance with this Part of these Regulations must use the professional title used in the United Kingdom which corresponds to that profession, and make use of any associated initials.

(2) Where a profession is regulated in the United Kingdom by a professional association, applicants must not be authorised to use the professional title issued by that professional association, or its abbreviated form, unless they furnish proof that they are members of that professional association.

(3) A professional association that makes membership contingent upon certain qualifications may do so only under the conditions laid down in these Regulations in respect of applicants who possess professional qualifications.

(4) A professional association in the United Kingdom may only reserve use of a professional title to the holders of professional qualifications if the title has been notified to the Commission and other member states.

(2) Where the applicant makes use of the possibility provided for in paragraph (1), the competent authority may require that the title shall be followed by the name and location of the establishment or examining board which awarded it.

(3) Where a competent authority decides that an academic title in paragraph (1) is liable to be confused with a title which, in the United Kingdom, requires supplementary training not acquired by the applicant, it may require the applicant to use the academic title of the home State in an appropriate form laid down by the competent authority.

Information from competent authorities

62.—(1) Competent authorities must provide the Secretary of State with such information (including statistical information) as the Secretary of State may require concerning applications made to those authorities by those seeking to rely on the provisions of the Directive and the actions and decisions taken in respect of those applications.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations revoke and replace The European Communities (Recognition of Professional Qualifications) Regulations 2007 (“the 2007 Regulations”). The 2007 Regulations implemented in part Council Directive 2005/36/EC (“the principal Directive”) on the recognition of professional qualifications as last amended by Directive 2013/55/EU amending Directive 2005/36/EU on the recognition of professional qualifications and Regulation (EU) No 1024/2012 on administrative cooperation through the Internal Market Information System (“the IMI Regulation”) (“the Directive”). The principal Directive replaced the previous Council Directives 89/48/EEC, 92/51/EC and 99/42/EC on the mutual recognition of professional qualifications, as well as the Directives laying down minimum standards of training in specific professions, namely the professions of doctor, nurse, dental practitioner, veterinary surgeon, midwife, pharmacist and architect (“the sectoral professions”).

These Regulations establish rules for the recognition of professional qualifications enabling migrants, referred to in these Regulations as “applicants”, from the States of the European Economic Area or Switzerland to gain access to the professions in which they are qualified and to practice under the same conditions as professionals in the United Kingdom where those professions are regulated. These rules set out provisions for facilitating the provision of temporary and occasional professional services cross-border, and also provisions in relation to applicants seeking to establish themselves on a stable basis in the United Kingdom.

These Regulations implement the principal Directive as amended by the Directive (“the amended Directive”) in relation to all regulated professions other than the sectoral professions but the provisions relating to the alert mechanism apply to the sectoral professions. They also implement the amended Directive in part in relation to the sectoral professions, and the extent to which these Regulations apply to applicants in the sectoral professions as set out in regulation 3. The provisions of the amended Directive relating to the sectoral professions which are not implemented by these Regulations will be implemented, if necessary, in regulations to be prepared by the Department of Health, the Department of Communities and Local Government and the Department for Environment, Food and Rural Affairs.

Part 1 of the Regulations sets out provisions relating to the application of the Regulations and the functions of competent authorities. Articles 23, 27, 33, 37, 39, 43 and 49 of the Directive, referred to in regulation 3(8)(a), relate to sectoral professionals whose qualifications were acquired before certain dates of reference. Articles 21(1), 23 and 27 of the Directive, referred to in regulation 3(8)(c), concern the principle of automatic recognition for sectoral professionals and on the basis of acquired rights.

Part 1 also provides for partial access to a professional activity under the conditions set out in that Part.

Part 2 of the Regulations sets out the rules for recognition of professional qualifications where an applicant moves to the United Kingdom seeking to provide professional services on a temporary and occasional basis. It sets out the role of a competent authority in relation to such an applicant, including specific provisions for professions having public health or safety implications, and it sets out the procedures and formalities with which an applicant must comply. This Part sets out the procedures for the issue of a European Professional Card for temporary provision of services. It also makes provision for administrative cooperation between competent authorities of relevant European States.

Part 3 of these Regulations makes provision for recognition of professional qualifications where an applicant moves to the United Kingdom seeking to provide professional services on a permanent basis.

Chapter 1 of Part 3 sets out the rights of applicants to practise in the United Kingdom on a permanent basis. It imposes duties, subject to certain conditions and exceptions, upon competent authorities not to refuse, on grounds of inadequate qualifications, applicants who seek to practice a regulated profession in the United Kingdom if they hold the qualifications required by a relevant European State to practice the profession in that State. It also provides for competent authorities, in certain cases, to require an applicant to complete either an aptitude test or an adaptation period before authorising the applicant to practice the regulated profession in the UK. This part also contains provisions relating to the issue of a European Professional Card for establishment.

Chapter 2 of Part 3, which applies only to the profession of farrier, makes provision for automatic recognition of professional experience by way of a certificate.

Chapter 3 of Part 3 of these Regulations sets out the procedure for the issue and revocation of a Certificate of Experience in respect of relevant experience and qualifications gained in the United Kingdom.

Chapter 4 of Part 3 makes provision concerning the evidence to be provided by an applicant or a competent authority in a relevant European State, the procedures to be followed by competent authorities when making decisions and the rights of an applicant to use the professional title or designatory letters applicable to the profession in the United Kingdom.

Part 4 of these Regulations sets out the alert mechanism by which competent authorities must notify other relevant States about professionals belonging to certain professions whose activities have been restricted or prohibited on its territory. It also makes provision for rights of appeal against decisions of competent authorities, the right of an applicant to use the lawful academic title acquired by the applicant in their home State, and for the provision of information by competent authorities in the United Kingdom. Part 4 also revokes the European Communities (Recognition of Professional Qualifications) Regulations 2007 which implemented the principal Directive.
