

Daniel Greenwood

4th year PhD student, University of Manchester

After graduating from the University of Manchester MPharm in 2014, Daniel completed pre-registration training at Guy's and St Thomas' Foundation Trust and Merck Sharp & Dohme before registering as a pharmacist in 2015. Returning to Manchester, he began doctoral study within the Drug Use and Pharmacy Practice group with a focus on Emergency Department Pharmacy Practice. Specifically, his PhD aims to define, describe and evaluate the impact of Emergency Department Pharmacist Practitioners in the UK. In 2016, Daniel was awarded a clinical research grant by the UK Clinical Pharmacy Association and Pharmacy Research UK to further his work. Also contributing to undergraduate and postgraduate teaching at Manchester, to date Daniel has successfully supervised 8 MPharm project students. To ensure his research is grounded in day-to-day practice, he also regularly works as a locum community pharmacist and recently started a diploma in Advanced Clinical Pharmacy Practice.
