

CPD planned learning form – industrial pharmacy, purchasing and distribution

1. What are you planning to learn?

I am planning to learn about Good Distribution Practice (GDP) in line with wholesale dealer guidelines outlined by the MHRA. I want to learn about the roles of the responsible person and how it differs from the responsible pharmacist. I want to learn about the expectations of a GDP inspection by the MHRA. This is valid to my role as I must implement a new of working with WDA for a contract. This will change the way that the prisons order, how we process and what records and standards must be adhered to.

There is a description of what you want to learn

2. How are you planning to learn it?

- I attended a GDP practice workshop with a Qualified Person.
- I completed a GDP training programme online.
- I attended and shadowed a Responsible Person for a warehouse.
- Learned the process on the change control forms and incident reporting procedures.

There is a description the relevance of the learning to your practice

There is a description how the learning will affect the people using your services

There is a description the options or activities you have selected to carry out

3. Give an example of how this learning has benefited the people using your services.

This has benefited me in my role as I have a sound understanding of what is required to run an organised WDA with Good Distribution Practice. I have been able to support and lead the new team through the change and implement the new ways of working in line with the MHRA guidance. Throughout the process we communicated the reason for the change to our customers and held training sessions on the new process. Through the training I have built new relationships with the team which has helped the smooth transition of the complex delivery schedules to ensure that the customers receive their delivery within the desired timeframe meeting the MHRA standards. Our new WDA has now been running for three months in line with the MHRA standards. - - We have had our first operational review with the Responsible Person which went well with minor actions to be addressed.

There is a description how you have applied the learning

There is a description how the learning – once you have applied it – has benefited the people using your services, illustrated with an example
