

Accreditation and Recognition panel member

Name: Dr Hayley Wickens

Team member

Job title: Consultant Pharmacist, Genomic Medicine, NHS Central and South Genomic Medicine Service Alliance

Hayley trained as a hospital pharmacist before completing a PhD in Pharmaceutical Microbiology and becoming one of the UK's first infection specialist pharmacists. She has held committee and advisory roles for the Department of Health, RPS and UKCPA, ECDC, the Commonwealth Pharmacists' Association and the Caribbean Public Health Agency and worked as an editor for Journal of Antimicrobial Chemotherapy for several years. She has taught at universities and hospitals in the UK and overseas and was a member of the management committee for the Imperial College London MSc Infection Management for Pharmacists.

Hayley was appointed as a consultant pharmacist at University Hospitals Southampton in 2012 and awarded RPS Faculty Fellowship in 2014. She then completed an MSc in Genomic Medicine and moved into pharmacy education with Health Education England in 2018. Hayley joined the NHS Central and South GMSA in 2021 and was awarded FRPharmS in 2023.
