

Accreditation and Recognition panel member

Name: James Amos

Team member

Job title: Senior Medical Affairs Adviser, Pfizer UK

James is working at Pfizer as a Senior Medical Affairs Adviser in the field of antimicrobial stewardship since 2022.

Previously James worked for Kent Community NHS foundation Trust (KCHFT) since 2014 as the lead pharmacist for electronic prescribing and medicines administration.

James has a special interest in antimicrobial prescribing, in this area he has help to promote and improve education and awareness of antimicrobial resistance within the community health care sector. James volunteers on the Public Engagement and Patient Support (PEPS) Committee for Antibiotic research UK (ANTRUK), a charity that aims to educate the public and healthcare sector on the rise of antimicrobial resistance.

Prior to training as a pharmacist James has worked for several pharmaceutical companies, ending this career at GW pharmaceuticals working on the cannabis-based medication Sativex. James graduated from the Medway School of Pharmacy in 2011, completing his pre-registration at Boots.

Registering as a pharmacist in 2012, James moved to work at East Kent Hospital University foundation Trust (EKHUFT) as a foundation pharmacist the same year. James completed his PGDIP in hospital pharmacy at the in 2017, when he started to work at KCHFT. James then went on to study infection prevention and control at the university of Essex in 2018 and has recently been awarded the Clinical Pharmacist Independent Prescribing qualification from Medway School of Pharmacy. James has a role with CPPE as an eLearning course reviewer
