E. Professional registration and currency of practice

If you are registered with a relevant profession (for example, registration as a pharmacist/pharmacy technician; legal or medical qualification/certificate of practice), please tell us what it is, and whether your registration is up to date. As well as ensuring compliance with the requirements of our Rules (in some cases, your position will require you to have a current professional registration – for example, if you hold the position of a registrant member or a legally qualified chair on a statutory committee), this will help us to get a better understanding of the range of skills, sector knowledge and experience that
we have available to us across our various associate and partner groups.

(For those associate groups whose registers of interests are published on our website, as a requirement of the Pharmacy Order 2010).

Dated: 29th August 2019
